Dear Gary,

LAD 980 622 021

In response to Paul Sieminski's letter of September 17 regarding the International Paper Company site (LA03212) and its mysterious location, I refer you to my correspondence with Dave Critchfield of International Paper.

During phone conversations with various IP employees (Dallas, TX if the site was really in Ouachita Parish and Norcross, GA if the site was in Tangipohoa Parish), the conclusion was reached that the site was in Tangipohoa. This conclusion is borne out by the amendment to the CERCLA notification form which I received from the EPA Region VI office in Dallas.

It is for this reason that the SI report is accurate and complete while the PA was inaccurate as to location. The PA should reflect the SI form's Section I (A-F) information.

Please contact me if you have any question regarding this information.

Sincerely,

A handwritten signature in dark ink, appearing to read "Rob", is written over the typed name.
